Dr. Robert C. Hockett
Acting Scientific Director
Council For Tobacco Research-USA, Inc.
110 East 59th Street
New York, New York 10022

Dear Dr. Hockett:

I am planning a research project to investigate the kinds of stromal cells in human lung cancers. I am particularly interested in knowing the rolls of individual kinds of stromal cells in bronchogenic carcinomas. Our laboratory is experienced in the use of immunoperoxidase techniques and cell separation techniques which we plan to employ in the investigation of human bronchogenic carcinomas.

I would appreciate receiving from you a set of directions informing me of the appropriate manner in which to apply for support from the Council For Tobacco Research.

I look forward to hearing from you.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Thomas G. Pretlow II, M.D.".

Thomas G. Pretlow II, M.D.
Professor of Pathology
